SUMMERY

Fresher Python Developer with a robust background in designing, developing, and maintaining high-quality software applications. Proficient in Python and familiar with modern frameworks such as Django and Flask. Skilled in front-end technologies (HTML, CSS, JavaScript) and strong knowledge with database management systems (SQL and NoSQL). Adept at problem-solving and debugging, with a strong understanding of algorithms, data structures, and software engineering principles.

TECHNICAL SKILLS

Python	SQL	Html
Djnago	Mongo DB	Css
Javascript	Bootstrap	React js

PROJECTS

Banking Management System using Python with sqlite database

Account Management: Allows for the creation, modification, and monitoring of customer accounts, including savings, checking accounts.

Customer Service: Provides tools for customer inquiries, account statements, and support services, enhancing the overall customer experience.

The system is designed to improve operational efficiency, reduce errors, enhance customer satisfaction. It can be integrated with other banking systems and services to provide a seamless banking experience.

Ecommerce Website [Html + Css + Bootstrap + Django]

I developed key eCommerce features using Django, HTML, CSS, JavaScript, and Bootstrap. I integrated secure payment gateways, optimized backend performance, and enhanced user experience through collaboration. This experience boosted my proficiency in Django

Tic-Tac-Toy Game using JavaScript

Tic-Tac-Toe is a classic and simple two-player game played on a 3x3 grid. The objective is for one player to place three of their marks in a horizontal, vertical, or diagonal row, while simultaneously preventing the opponent from doing the same.
